

# EFFICACY & IMPLEMENTATION

*Making the most of your technology*

SMART®

YOUR PURCHASE IS  
JUST THE BEGINNING

**SMART** provides long-term partnership in your technology implementation, based on your desired learning outcomes. *The goal?* To empower teachers and students to find their greatness and increase student achievement.

# EFFICACY & IMPLEMENTATION

*Making the most of your technology*

Personalized support and training are included when you buy. Here's what our team will do:

## Create a needs-based implementation plan

We'll help you design an implementation plan to meet your desired goals and improve student outcomes.

## Plan and deliver relevant, scalable professional development

We'll give teachers the tools they need to immediately motivate and engage students in content from day one. We'll then focus on enhancing curriculum and learning materials that integrate technology and enable your desired changes in teaching and learning practices.

## Assess the effectiveness of your SMART implementation and showcase the results

We will provide you with ongoing support throughout your implementation. We'll partner with you on a publication that will showcase your qualitative and quantitative achievements, demonstrating your return on investment.
