

SMART kapp features

Sizing options

Available in 42" portrait or 84" landscape orientation

Get started right away

Put it up. Plug it in. Create. Installation is that easy with no IT integration required.

Refined inking

Write and erase on the sleek, stain-free surface.

Real-time sharing

Up to 250 students can be invited to view content from any browser, in real-time, whether they're in the classroom or not.

Easily distribute class notes

Save class notes as snapshots on a mobile device and to your Evernote™, Google Drive™, Dropbox™ or other storage accounts for easy distribution.

Full data security

Protect your session with a PIN code. Shared lessons and class notes are immediately deleted when you disconnect your device.

How it works

Sync your
mobile device

Write with
a regular dry-
erase marker

Save class
notes as a PDF
or JPEG

Share content
in real-time with
students

Go Premium

Upgrade to the premium app and unlock amazing functionality, and get even more new features every time they're released.

To get started,
download the app

The premium app includes:

Expanded live sharing

Share content in real-time with up to 250 students simultaneously, by quickly and easily inviting them to a session, so everyone can see what's on the board as it unfolds.

- Students in the room or anywhere in the world can follow content in real-time on their devices
- Any student can download the sessions' snapshots directly from their browsers

Secured live sharing

Add additional security and protect your sharing sessions with a PIN code.

- Fully control who can access your live sharing sessions
- Set the PIN from your mobile device and change it at anytime

Static session link

Get started right away by sharing a reusable link before class begins, so everyone is logged in and ready to go when it's time to learn.

- Reuse the same link for every class
- Students can bookmark the link to easily log in

Watermark-free snapshots

Export your snapshots as watermark-free PDFs and JPEGs

- Students can share the content they captured during a lesson directly from their device with little rework
- They can also export and drop that content into documents to immediately share and discuss with their peers

Imagine the possibility for your schools

In the classroom, SMART kapp enriches small group collaboration by allowing students to naturally capture discussion notes and then digitally share outcomes with the instructor or with the broader class via student devices or front of room display. Class notes can be shared in real-time, saved and easily distributed after class, so students can focus on class discussion, rather than copying notes.

“This combination of dry-erase board and interactive learning app offers exciting possibilities.”

Chrissy Winske, Editor
K-12TechDecisions

But collaboration doesn't only happen in the classroom. Whether you're discussing ideas in the faculty lounge, drawing up plays in the gymnasium or doing a project in the library, SMART kapp will enhance and modernise the experience.
