

SMART Board® M600 series interactive whiteboard

Intuitive design and dual-touch controls make it easy for educators to turn lessons into learning experiences.

- Dual user capabilities
- Touch gestures
- Powered by SMART Learning Suite
- SMART Ink®

Powered by SMART Learning Suite

SMART Learning Suite combines lesson delivery, assessment, student collaboration and game-based learning software into one ultimate education suite. It connects students, teachers and devices to turn lessons into enriching learning experiences.

Key Features

Dual touch capabilities

DViT® technology supports two simultaneous touches, making it easy for students to work together at the same time.

Freestyle interaction

Two students can collaborate without having to switch to a multiuser mode or work on specific areas of the surface.

Touch gestures

Flick, rotate and zoom using simple hand-gestures. A natural touch experience means students and teachers write, erase and perform mouse functions using a finger or pen.

SMART Ink

Write over websites, videos, PDFs and Microsoft Office® files and save your notes in almost any file type.

Intuitive, multiuser pen tray

Quick access to ink color sections, on-screen keyboard and help functions make it easy for teachers to run lessons.

Durable surface

The low-gloss surface is optimized for projection, ensuring that content can be clearly seen from anywhere in the room. The surface is also easy to clean and is compatible with dry-erase markers.

Projector controls

The SMART Board® M600 series, with projector controls, is compatible with Epson PowerLite® 680 and 685W ultra short-throw projectors for SMART. The projector control panel is integrated into the pen tray to easily control projector power, volume and input select.
