SMART TeamWorks software

Plan. Collaborate. Recap.

SMART TeamWorks™ software is designed to leverage the power of SMART Board® interactive displays for fast, flexible and limitless collaboration. With one-touch meeting launch, a connected whiteboard, wireless screen sharing and customized PDF summaries, SMART TeamWorks is your end-to-end visual collaboration solution.

Available by subscription.

Windows® 10 compatible
Ideal with Intel® Compute Card

Choose the subscription to fit your collaboration needs

The **Room Edition** supports collaboration at the display and is great for boardrooms and huddle rooms. The **Connected Edition** lets participants on the same network – in the meeting room or in their office – add notes and dynamic content to the connected whiteboard from any iOS®, Android™ or Windows device. A **Server** subscription supercharges the Connected Edition to collaborate with offsite participants on any network for applications such as remote collaboration, virtual rooms and distance learning.

Features

	ROOM EDITION	CONNECTED EDITION	SERVER
Microsoft® Exchange integration	Yes 1 tap join	Yes 1 tap join	Adding Server to the Connected Edition provides the following features: • Preschedule connected whiteboard sessions • Real-time, remote contribution to whiteboard sessions from up to 1,000 devices on any network • Teams, WebEx, Zoom and ConX integration • Automatically join scheduled meetings and whiteboard sessions • Meeting folder with files and links automatically available to the whiteboard • Create new meetings from your device through the free contributor app • Share meeting link to additional participants at any time • Save meeting content to the server • Web portal to manage resource and virtual meeting rooms, whiteboard sessions and content files

Applications

Plan and launch

- Integration with **Microsoft Exchange** for easy scheduling and set up of meetings
- SMART Board automatically turns on when you walk in the room and displays the meeting **calendar, date and time**
- Start meeting from calendar display with one-touch Exchange, conferencing platform and connected whiteboard launch
- Customizable **home screen** and **application launcher** screen

Collaborate and share

- **Connected whiteboard** lets teams add and interact with all sorts of dynamic content – images, PDFs, Microsoft Office® files, websites and videos – for limitless collaboration
  - Participants can join and contribute to the whiteboard from devices via meeting PIN or QR code through a free contributor app
  - Unlimited sticky notes to add ideas and files
  - Speech to text conversion and voice commands
- **Wireless screen sharing** for up to 8 devices – iOS (AirPlay), Android (Google Cast), and Windows (Miracast) – at 60Hz for a smooth, lag-free performance
- Server is compatible with **many conferencing solutions**, so sharing content with remote participants is easy

---

Unparalleled Collaboration – Only with SMART Board interactive displays

- **SMART Ink®** software lets colleagues write into dynamic content including shared screens, and save changes in the PDF recap
- **Simultaneous Tool Differentiation** lets multiple people use pens, erasers and fingertips at the same time

---

Recap and reset

- **Email or save** a customized PDF summary of the whiteboard content
- **Clear the whiteboard** with a touch or voice command
